HALO AP

ANATOMIC PATHOLOGY WORKFLOW SOFTWARE

HALO AP® brings case-centric automation, collaboration and quantification to your Anatomic Pathology lab.

The browser-based HALO AP® interface makes it easy to consult with other pathologists and provides anywhere, anytime access to digital slides, patient information and image analysis workflows.
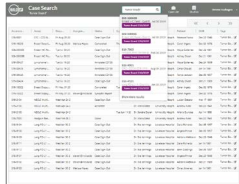

For more info visit **www.indicalab.com/halo-ap**
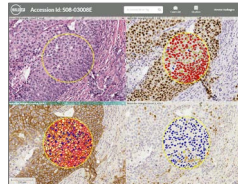

HALO AP® APPLICATIONS

CONSULTATIONS

Facilitate secondary consultations with internal and external pathologists

TUMOR BOARDS

Organization and annotation of digital slides for tumor boards and education

QUANTITATIVE ASSAYS

Delivery of quantitative analytic workflows for diagnostic and clinically-relevant biomarkers*

ARTIFICIAL INTELLIGENCE

Integration of artificial intelligence tissue classification to assist digital slide review and quality control

CLINICAL TRIALS

Delivery of quantitative and qualitative assays to facilitate multi-institutional clinical trials

*HALO AP® is not FDA cleared for diagnostic procedures.
